Member of the Hungarian Academy of Sciences, 1993

- G. Alexits Award (Janos Bolyai Mathematical Society, 1984)
- G. Grunwald Award (Janos Bolyai Mathematical Society, 1979)

Miklos Schweitzer Contest, 1st prize 1978, 1st prize 1979, 2nd prize 1976,

## **Recent Talks:**

Convexity of harmonic measures, SEAM, Tampa, 2016 (plenary talk)

The real world is complex, Coppenhagen, 2015 (plenary talk)

International Conference on Applied Mathematics 2014, Hong Kong, 2014 (plenary talk)

Constructive Functions, Nashville, USA, 2014 (plenary talk)

Random matrices and Jacobi operators, Mittag-Le er Institute, Stockholm, Sweden, 2014 (invited talk)

XIth international conference on approximation optimization in the Caribbeans, Puebla, Mexico, 2013 (plenary talk)

International Workshop on Approximation and Applications (IWATA); Rifredda, Italy, 2013 (plenary talk)

Erdos Centennial, Budapest, Hungary, 2013 (plenary talk)

Numbers, Functions and Equations, Visegrad, Hungary, 2013 (invited talk)

AMS Special Meeting on Approximation and Orthogonal Polynomials, Oxford, Mississippi, USA, 2013 (invited talk)

AMS Special Meeting on Complex Analysis and Operator Theory, Tampa, FL, 2012 (invited talk)

New Trends in Approximation Theory, Ein Gedi, Israel, 2012 (plenary talk)

ICREA Conference on Approximation Theory and Fourier Analysis, Barcelona, Spain, 2011 (plenary talk)

Recent developments in Functional Analysis and Approximation Theory, Lecce, Italy, 2011 (pleanary talk)

Harmonic Analysis and Approximations, V., Tsaghadzor, Armenia, 2011 (pleanary talk) 11th Orthogonal Polynomials, Special Functions and Applications (OPSFA), Madrid, Spain, 2011 (plenary talk)

Complex Analysis, Operator Theory, and Approximation, Linz, Austria, 2011 (plenary talk) Special functions and orthogonal polynomials, FOCM, Budapest, Hungary, 2011 (invited talk)

## **Recent Grants:**

National Science Foundation, DMS 1564541, 2016 (2018) National Science Foundation, DMS 1265375, 2013{2015

## Research papers:

- Research papers:

  192 The Gauss-Lucas theorem in an asymptotic sense,  $B_{ee}$ .

  191 Barry Simon and the Janos Bolyai International Mathematical Prize,  $A_{ee}$ .

  191  $A_{ee}$ . **149**(2016), 263{273
- International Mathematics Research Notices 2016; doi: 10.1093/imrn/rnw059
- 188 Universality under Szegè's condition, Barris & Barris 59(2016), 211-224.

  187 (with A. Danielyan) A converse to a theorem of Salem and Zygmund, Barris 140(2016), 260{272.

- 180 (with P. Nevai) Christo el functions for weights with jumps, CA, 42(2015), 265{280.
- 179 (with B. Nagy and S. Kalmykov) Asymptotically sharp Markov and Schur inequalities on general sets, Complex Anal. Oper. Theory, 9(2015), 1287{1302.
- 178 Bernstein and Markov type inequalities for trigonometric polynomials on general sets, , doi:10.1093/imrn/rnu030
- , doi:10.1093/imrn/rnuoso
  177 (with G. Nagy) A convexity property of discrete random walks, (to appear)

- 401{421.
- 172 Erdos on polynomials, e Bolyai Society Mathematical Studies, **25**(2013), 683{709. 171 Approximation by homogeneous polynomials, A . A . 174(2013), 192{205. DOI 10.1016/j.jat.2013.07.005 10.1016/j.jat.2013.07.005
- 170 Chebyshev polynomials on compact sets  $A_{C}$ ,  $A_{C$
- 169 A note on rational  $L^p$  approximation on Jordan curves  $\checkmark$ 4 6 10 **13**(2013), 425-431.
- 168 Asymptotics of Christo el functions on arcs and curves,  $A_c$  , 252(2014), 114(149. 167 (with E. Lundberg) Lemniscate growth,  $A_c$  ,  $a_c$  ,  $a_c$  , 3(2013), 45(62, DOI 10.1007/s13324-012-0038-1
- 166 Bernstein type inequalities, . A . ,  $\blacksquare$  , 164(2012), 1390-1401, doi:10.1016/j.jat.2012.03.002
- 165 Normality of orthogonal polynomials,

- 147 (with P. P. Varju), Polynomials with prescribed zeros and small norm, A**73**(2007), 593{612
- 146 (with L. Golinskii) Orthogonal polynomials from Jacobi to Simon, Spectral Theory and Mathematical Physics: A Festschrift in Honor of Barry Simon's 60th Birthday: Ergodic Schrdinger Operators, Singular Spectrum, Orthogonal Polynomials, and Inverse Spectral Theory, Proceedings of Symposia in Pure Mathematics, AMS, Providence 2007, pp. 821{874.
- 145 Orthogonal polynomials, A ,  $\mathbf{1}(2005)$ ,  $70\{125$ . 144 Equilibrium measures and polynomials, Proceedings of the 4th European Congress of Mathematics, Stockholm, Sweden, 2004, A. Laptev editor, European Mathematical Society, 2005, 501{515.
- 143 (with F. Tookos) Markov inequality and Green functions,  $e^{-at}$ . Serie II, **76**(2005),
- 142 (with B. Nagy) Sharpening of Hilbert's lemniscate theorem, . 'A , 96(2005), 191{223. 141 (with L. Baratchart and R. Kustner) Zero distribution via orthogonality A , c **55**(2005), 1455{1499.
- 140 (with B. Simon) Limits of zeros of orthogonal polynomials on the circle, **278**(2005), 1615{1620.

- 139 (with P. Nevai) Denisov's theorem on recurrence coe cients, . A , . . . . , 127(2004), 240{245. 138 (with L. Carleson) Holder continuity of Green's functions, A , . . . , 70(2004), 557{608. 137 (with L. P. Bos, A. Brudnyi and L. Levenberg), Tangential Markov inequalities on exponential curves, ., **19**(2003), 339{354.
- 136 Approximation on compact subsets of  $R_{\bullet}$  .  $\bullet$  .  $\circ$  .  $\circ$  .  $\circ$  .  $\circ$  .  $\circ$  .  $\circ$  . Num. Math., **142**(2002), 203{274.
