Dr. Yu Zhang Department of Civil and Environmental Engineeratighe University of South Florida, was elected president of Chinese Overseas Transportation Association (@OTA) international non-profit profession borganization with more than a thousand members and friends worldwide

Established in Januar 1996, COTA (formerly NACOTA) is committed be a leading professional organization in promoting and facilitating communications between transportation professionals worldwide and domestic transportation professionals in (Bltip: #/www.cota home.org) The main objectives of COTA include:

- To enhance connections among overseas transportation professionals and their counterparts in China.
- To promote transportation development in China by providing knowledge and expertise through its members.
- To enhance networking and cathloration among members of these aciation.
- To serve as a platform to share information and knowledge on transportation development for all transportation professionals.

One of the major activities that COTA routinely organizes every year is the COTA International Conference of Transportation Professionals or CICTP (formerly International Conference of Chinese Transportation Professionals or ICCTP). The CICTP series is the pretreenge for transportation professionals worldwide who are interested in making contributions to or gaining a deeper understanding of the transportation development in China. Through consistent efforts over the past 15 ears, CICTP has built up itspeetation as one of the most influential academic conferences in China. The <sup>th</sup> CICTP will be held at Shanghai Maritime University July 6 to 9, 2016.

Another major activity is the COTA Winter Symposium in conjunction with the TRB annual conference, organized since the establishment of the association. The CT9th Winter Symposium will be held on Sunday, January 2016 at Congress (M4), Marriott Marquis, Washington, DC.

Besides these acttives, COTA also initiated the COTA Best Dissertation Awiar 2015 for recognizingoutstanding students with Chinese nationalities pursuing doctoral degrees in the transportation field. The award will be presented annually togrameuate student for their PhD dissertation This year Dr. Yiheng Feng (graduated from University of Arizona under the supervision of Dr. Larry Head and currently postdoc at University ichigan, Ann Arbor) is the recipient of the award.
