Michael Esteban Receives Frost Scholarship

Mr. Michael Esteban of the University of South Florida has been awarded a Frost Scholarship to study at the University of Oxford. The Frost Scholarship funds current students of the State University Stystem Florida (SUSF) to study ogear, fulltime master's courses in science, technology, engineering and mathematics ('STEM' subjects) at the University of Oxford. The Frost scholarship will allow Michael to complete an MSc in Water Science Policy and Mamagnt at the University of Oxford. Completion of this graduate program will allow Michael to explore the policy and management aspects of his future career and enable him to develop his engineering research into practical solutions for coastal cities.

Michael, an Honors College senior, will graduate from USF in May with his Bachelor of Science degree in Civil Engineering with a concentration in Environmental Engineering. He represents the USF College of Engineering, where his achievements inside and outside classroom have been noted been in the

Academic Scholars Award Administration(NOAA) Ern undergraduate students w served as the organization signature fundraising even team on the USF Capston Hillsborough County Publi presented and won at both the Florida Water Resource Conference (state) and the Water Environment
